VISIBILITY FOR YOU AND YOUR CLIENTS

IFS equips your clients with AMOS, the best-in-class asset management system that empowers them to optimize the management of their technology assets. Furthermore, in addition to AMOS, our vendor partners gain entry to our exclusive vendor gateway.

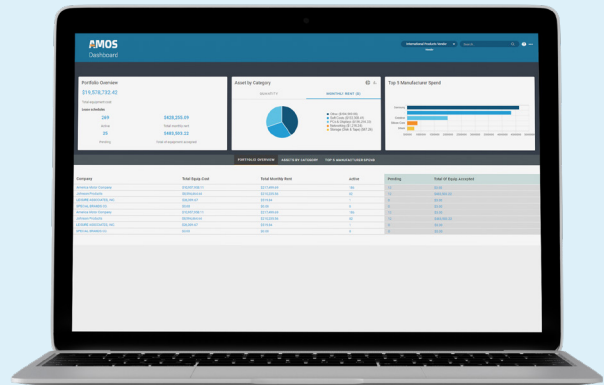

CLIENT ASSET MANAGEMENT

- Executive dashboard of portfolio data
- Alerts to upcoming expiring leases
- Manage location and serial number changes
- Import and manage non-IFS assets
- Link assets to maintenance contracts
- Generate lease accounting reports

VENDOR GATEWAY

- Snapshot of all your client portfolios
- View roll-ups of all leases, assets and spend
- Drill-down to client-level executive dashboards
- Leverage tools to help manage client assets
- Run invoice, aging, and lease runoff reports

Contact your IFS sales representative to schedule a free demo for you or your customers.
